

About AutoSolos

An AutoSolo consists of a number of timed, 'all forwards' courses, on hard surfaces. The cars used must be roadgoing and driven to the event, the courses don't require specialised manoeuvres such as spin turns, and their design and marking are intended to make the routes easy to follow.

Compared to traditional autotests, speeds through corners may be a little higher, and the tests longer, with cars starting at timed intervals, rather than waiting for the last one to finish. Competitors also act as course marshals, on a rotating basis.

AutoSolos in the UK were pioneered by Bristol Motor Club, inspired by similar events which are well established in the USA, and they are now becoming increasingly popular here.

This event is the final round of our 2014 Solo Challenge, which is based on the club's Solo events through the year. For details, see the Championships page on our website, at www.farnboroughdmc.org.uk

2. The meeting will be governed by the General Regulations of The Motor Sports Association (incorporating the provisions of the FIA's International Sporting Code); these Supplementary Regulations; and any written instructions that the organisers issue for the event. The transmission must be also of the original manufacture but ratios and differential type can be changed, including fitting an LSD.

Cars not meeting all the above requirements are eligible only for Class F. The organisers' decision will be final, regarding the eligibility and most appropriate class for any particular car.

As per GR M.33: cars entered in AutoSolos must be registered, taxed, insured, MOT tested if applicable, and driven to the event. NB: these requirements **will be** enforced. A current tax disc must be displayed; proof of insurance cover, and MOTs (as appropriate) must be available at scrutineering/signing on; and trade plates will not be accepted.
