About Autosolo's

An Autosolo consists of a number of timed, all forwards tests, on hard surfaces.

The cars used must be roadgoing and driven to the event. The courses don't require special manoeuvres like spin or J turns and their design and marking are intended to make the routes easy to follow.

Compared to normal autotest speeds tend to be a little higher and the test's will be longer. Cars will start at timed intervals and there will be two or more cars on the course at the same time. Competitors also act as course marshals on a rotating basis.

Some tips for first timers,

- Increasing tyre pressures by 5-10 psi will help with turn in and reduce wear.
- Always wear a seat belt. You will go faster.
- Learn the course. Don't go flat out out and make a mistake on the first run.
- If you make a mistake drive the rest of the course properly. You are still learning
- Talk to regular competitors for advice.
- ENJOY YOUR DAY.
